Objective

MERN Stack Developer with strong problem-solving skills and hands-on experience in building scalable web apps. Skilled in React, Node.js, and API integration, with a keen interest in fintech and payment systems. Experienced in agile sprints and frontend development.

Experience

ValueNomics Advisory LLP (Web Developer Intern) July'25 – Sep'25

- Built 80% of the frontend from scratch using React.js and Tailwind CSS, developing a scalable fintech dashboard for tracking property investments, revenue, profit/loss insights, and financial metrics.
- Integrated secure authentication/authorization, and session management, ensuring smooth and protected user experiences reducing dashboard load time by 30% and enhancing frontend performance by 25%.
- Connected frontend with RESTful APIs for real-time data sync, boosting dashboard responsiveness and user engagement by 30%.
- Designed a modular React architecture using Hooks and Context API, enabling role-based access control (RBAC) where admins can manage users and edit critical property data, while normal users have restricted operations.
- Collaborated with backend and product teams during agile sprints to optimize UI/UX and enhance platform scalability, ensuring smooth financial data workflows and a consistent, responsive user experience across devices.

Digibetter Digital Solutions LLP (Frontend Web Developer Intern) Nov'24 – Jan'25

- Built a scalable website with React.js, optimizing component architecture and state management to improve UX, contributing 60% of the UI/UX.
- Developed modular React architecture with hooks and props; optimized API calls to cut load times and boost UX by 30%.
- Designed **reusable navbar and interactive dashboard**, ensuring seamless navigation and data rendering.

Education

B-Tech in IT- *JSS Academy of Technical Education (SGPA: 7.79/10)* 2022 – 2026

Higher Secondary Education- *Sanskar Public School, Gwalior (GPA: 8.1/10)* 2021 – 2022

Higher Education- *Cambridge School (GPA: 8.6/10)* 2019 – 2020

Projects

Zaika Junction

[Frontend URL](#) [🔗](#)

[Admin URL](#) [🔗](#)

- Developed a full-stack Food Delivery Web Application with secure authentication, session management, and MongoDB integration for managing users, orders, and credentials.
- Built a dynamic **Admin Panel** enabling **real-time order tracking and food item updates**, improving operational workflows.
- Designed responsive UI/UX with interactive animations, custom logos, and icons created using Figma, enhancing visual appeal and user engagement.
- Integrated **Razorpay payment gateway** for seamless and secure online payments, improving checkout performance and enabling real-world fintech integration.
- Technologies Used: React, React Router, JavaScript, CSS, Bootstrap, MongoDB, Node.js, Express.js, Razorpay API (Payment Platform Development), Figma (for UI design and animations), Git, Vite.

TubeShield

[Project Link](#) 

- Developed **TubeShield**, a Chrome Extension to unlock a **YouTube Premium-like experience for free**, blocking or hiding Shorts and distracting content to enhance user focus.
- Leveraged JavaScript and Chrome Extension APIs for **real-time content filtering and DOM manipulation**, giving users full control over their YouTube feed.
- Built an intuitive popup UI with toggle options for each feature, ensuring **seamless interaction and easy customization**.
- Optimized performance and responsiveness, reducing load times and providing a smooth, distraction-free browsing experience.

Anubhav's Book -My Portfolio

[Project Link](#) 

- Built a fully responsive portfolio website with React.js, CSS, and Bootstrap, with a great user experience.
- Integrated a Web3-powered contact section for secure, direct communication.
- Implemented smooth scroll navigation with React libraries, improving accessibility and interaction.
- Enhanced UI for improving user engagement and demonstrating my expertise in Tech.
- **Technologies Used:** React, React Libraries, CSS, Bootstrap.

Skills

- **Programming Languages:** C, C++.
- **Problem Solving:** Strong understanding of Data Structures and Algorithms (DSA).
- **Frontend Development:** ReactJS, JavaScript, Tailwind CSS, Bootstrap, UI/UX design, HTML, CSS, State Management, Responsive UI.
- **Backend Development:** Node.js, Express.js, MySQL, MongoDB, REST APIs, CRUD Operations, JWT Token, Authentication / Authorization, **Payment Gateway Integration**, Scalable Architecture.
- **Platforms:** Git, GitHub, VScode, LeetCode(220+), GFG, Hackerrank.
- **Other:** Team Collaboration, **Agile Methodology**, Problem Solving, Debugging, and Head of Editing/Designing Team.

CERTIFICATIONS

- **Responsive Web Design:** Freecodecamp.
- **Web Development Certification:** IBM SkillBuild
